Global Learning Corporation

WorldClassroom Network
P.O. Box 201361
Arlington, TX 76006
Telephone: 800/866-4452
FAX: 817/460-5483
Internet: global@glc.dallas.tx.us

Global Learning Corporation publishes the WorldClassroom Network, an international telecommunications network for K-12 schools. By means of a personal computer with a modem and standard telephone line, students work with their peers in classrooms across the country and around the world. The network offers a variety of structured curriculum activities in science, social studies, and language arts. There are many special activities that include multilingual projects and guest speakers. Guest speakers are experts on a range of topics that are of interest to the students and teachers. Classes also discuss international current events as well as topics of national and local interest. Students also have the opportunity to have their work published for an international audience in NewsLink, the newsletter of the WorldClassroom Network. WorldClassroom is recommended by the National Association of Secondary School Principals (NASSP) and is an approved menu pick on FIRN, Florida's statewide network for teachers. WorldClassroom opens new worlds of learning!

Physics InfoMall

116 Cardwell Hall, KSU

Manhattan, KS 66506-2601

Telephone: 913/532-1612

FAX: 913/532-7167

The Physics InfoMall, a CD-ROM for Macintosh and Windows platforms, is designed for creating new lessons that meet the daily challenges in the classroom. It is a resource for physics teachers—novice to expert—who wish to search a large physics information center while sitting at their personal computers. It is a shopping center of ideas for physics teachers (and their students). Just as a shopping center is a mall of consumer products, Physics InfoMall is an “information mall” of different topics in physics. The “stores” available include textbooks, experiments, demonstrations, booklets and many others.

Trellis

592 Harvey Road
Manchester, NH 03103-3320
Telephone: 603/668-1213
FAX: 603/668-9211

Trellis Communications Corp. is a full-service systems integrator and supplier specializing in fiber optic technology. Since 1985 we have designed networks and installed more than fifteen (15) million feet of optical fiber at colleges, universities, prep schools, municipalities and businesses throughout the country. Trellis offers services consisting of Network Feasibility/Design Consultations, “Turnkey” Systems Integration as well as complete and comprehensive Technology Training programs. Trellis Communication’s Network Feasibility/Design Consultation services provide complete client needs assessments and/or complete fiber optic network designs and recommendations in the form of detailed studies and network designs. Network designs would include complete “span engineering,” complete bill of materials and services, Request for Quote (RFQ) preparations and bid evaluation assistance as well as many other supporting services.

Our “Turnkey” Systems Integration services offer complete system implementation including: material provision, site preparation, cable installation, project management, quality assurance, connectorization, splicing and testing. Trellis employs fully trained and qualified field managers, engineers and technicians who are experts in their respective fields, which guarantees a quality network implementation, on time and in budget.
