

Texas Center for Educational Technology

The Texas Center for Educational Technology (TCET) stands as one piece of an impressive infrastructure created by the Texas Education Agency to bring the benefits of technology to Texas public schools. At the heart of TCET's research and development agenda lies its mission: to promote research and development collaboration between industry and education in order that technologies and applications can be integrated into the public school system.

TCET's organizational structure is uniquely collaborative. Public school educators, teacher training institutions, and technology vendors work together, sharing perspectives and creating a dynamic environment aimed at restructuring Texas public schools to meet the challenges of the 21st century.

All school districts in Texas receive a *free* membership in TCET. Corporations, non-profit entities, out-of-state educational organizations, and individuals are invited to join.
